# How to Review Your Part D Prescription Drug Plan for 2027

If you would like to review your prescription drug coverage for 2027, we recommend using your Medicare.gov account to compare your current plan with other Part D options available in your area.

## Below are step by step instructions to help you with your review:

1. **Log in to your Medicare.gov account.**
   If you do not already have an account, you will need to create one before getting started.
2. **Select "Health & Drug Plans."**
   This option is located at the top of the page. Then select "Find Health & Drug Plans."
3. **Enter your ZIP code and select your plan type.**
   Select "Medicare Drug Plan (Part D)." Note: If you have Medicare Advantage, select "Part C."
4. **Indicate that you do not receive assistance from any of the listed programs.**
   On the next page, check the line that says "I don't get help from any of these programs."
5. **Indicate whether you would like to include your prescription drug costs.**
   If you are taking medications, check "Yes, include drug costs." If you are not taking any medications, check "No, don't include drug costs."
6. **Enter your current medications.**
   If you selected "Yes," enter all of your current medications. Be sure to select the correct medication, dosage and quantity when prompted. Remember to include seasonal or occasional-use medications, as well as rescue inhalers. When your medication list is complete, click "Continue."
7. **Select your preferred pharmacy or pharmacies.**
   You can choose more than one pharmacy in your comparison. This can be beneficial because drug costs can vary by pharmacy. When your medication list is complete, click "Continue."
8. **Review the plan comparison page.**

You have now arrived at the plan comparison page. Plans are listed from the lowest cost to the highest cost. The estimated cost shown combines premiums and out-of-pocket costs for your medications. Locate your current plan and compare its costs and coverage with the other available options.

9. **Decide whether a change makes sense for you.**
   If you think a change would benefit you, select “Enroll” and follow the enrollment instructions. However, if you are satisfied with your current plan, no action is required and your current plan will generally renew automatically.

**NOTE: You can submit a change between October 15th and December 7th.**

## Important: Check Your 2027 Premium

If your plan had NO monthly premium in 2026, but will have a premium in 2027, contact your plan directly to make arrangements for your 2027 premium payments.

Payment options may include:

- Deduction from your Social Security check
- Credit card payment
- Automatic bank draft

Before selecting a payment method, be sure to ask your plan about any applicable fees or available discounts. For example, some plans may charge a fee for credit card payments, while others may offer a discount for enrolling in an automatic bank draft.

*Do not ignore your premium payment. Failure to pay premiums could result in termination of your coverage and lifetime penalties. Be sure to confirm your plan's payment requirements and deadlines directly with the plan.*
